The programme is run by **VANEL** (Voluntary Action North East Lincolnshire) as part of their Neighbourhood Networking initiative and is funded thanks to the **Humberside Police and Crime Commissioner**. Much more information about the programme is on the www.nelwatch.org.uk website managed by VANEL. Visit www.nelwatch.org.uk/equipment to find information; answers to your questions; the latest catalogue (as availability can change) and the **online request form**.

Unfortunately, this offer is limited to residents who live in one of the wards mentioned above.

The programme is extremely short in duration so please make your requests (or help others to make requests soon). You can request more than one item and the FAQ's on the website should help answer any other queries you have. Every order will also contain a free "No Cold Caller" window sticker.

VANEL runs this project in partnership with local Neighbourhood Policing Teams; Ward Councillors and others so we can reach as many residents as possible. But it's all run part-time so please bear in mind that your items might take a few weeks to become available. You can request what you want but we also reserve the right to supply alternatives or less items should project funding and supply dictate. We ask residents to help us by arranging to collect items when possible. Much more information and details on our website. Thank you.
